

LD431W.1000 - 1M Walkway Landing Kit

This is a simple walkway landing kit which will enable the ladder to rest on the walkway so there is no point load on the roof deck.
The base of any ladder must have a landing min 900mm from the front of the ladder.

LD431S.1000 - 1M Support Landing Kit

This support landing kit is used for ladder over 3.5m in height. These ladders will be heavy and require additional support when on a roof deck.

LD431A.1000 - Adjustable Landing Kit

This landing kit is required if lower surface is not level (greater than 7 deg) and can also be used to even up the rung spacings.

LD419S - Ladder Base Support Angle Set

For concrete mount, fix the angles into the concrete. The fixings can be 6 or 8mm wedge anchors or similar (do not use Nylon 'knock-in' fixings)
The base angles must not impede the foot area of the ladder.
