

ZERO INTEGRA DOUBLE LANYARD WITH SCAFFHOOKS AND SNAPHOOK

HR 024

AS/NZS 1891.1:2007, EN355:2002

Fall Arrest lanyard with integrated shock absorber. Energy absorbing lanyard made from wide polyamide tubular webbing and special woven polyester fabric webbing inside, which holds the stock absorbing qualities. The internal woven component acts in the same way as a typical shock pack, tearing on impact and reducing the forces in the event of a fall. This PPE item is a component of a PPE fall arrest system.

Features:

- Yellow colour webbing to differentiate between other Zero lanyards with ABM type shock absorbers
- Elasticated webbing lanyard
- Twin tails with scaffhooks for anchorage
- 2m length

Dimensions	2m
Material	Polyamide
